The financial statements of the three banks of Farmington appear in this issue of The Times, and they make interesting reading. The figures show all of them to be in splendid condition, and under safe and conservative management. These institutions inspire confidence and it is a real pleasure to do business with them.

Judge Peter H. Huck left Wednesday afternoon, immediately after adjourning court over until next Monday, for St. Louis to attend a judicial conference which met in St. Louis yesterday. This conference is an annual event, and is participated in by all circuit judges in the state. Its principal aim is to suggest beneficial legislation, to be recommended for passage by the law-making bodies.

Mr. and Mrs. John M. Allen arrived in Farmington Sunday for a visit with John's parents, Mr. and Mrs. R. L. Allen. They came from Albuquerque, N. M., where John has been in charge of a branch house of the firm with which he is employed. They will remain until the New Year, when they will go to Salt Lake City, where John will have employment with the same firm. He is looking fine, but prefers the climate of the Salt Lake region, where he spent a year or more previous to going to New Mexico.

Finally Old Boreas has shown his face in this community for the first time this winter, his brim visage making its appearance for the first time this winter on Tuesday morning. But even then he was not clothed in his accustomed raiment for the season, not having put on that crimped air and icy fingers he usually has before this season has been reached. But owing to the fact that this was his initial appearance for the winter, his appearance was generally taken more seriously than his temperature would justify.

Just as a reminder, we ask that our readers look at the date following their names as stamped on their papers and if they find that their subscription has expired, send us a check for \$1.50 to renew same. If your date reads "7-22," it means that your time expired in July, 1922, the first figure standing for the month and the last for the year. If it reads "10-22," your time was out in October, and if "1-23," it will expire in January. Prompt remittance from those whose subscriptions are not marked in advance will be appreciated.

WE CLOSE ALL DAY CHRISTMAS

A burning flue in the home of County Clerk Marvin W. Crowder last Friday afternoon created considerable excitement. The fire department was on hand, having made an incredibly quick run, being there prepared to fight the flames almost before the echoes of the fire whistle had died away. Mr. Crowder feels greatly pleased at such quick response, even though it proved their services were not needed, and he and his family feel most grateful indeed for the many acts of kindness and consideration exhibited to them even before it was known that their home was not in the clutches of the fire demon.

NEW "BEVERAGES" HELD UP

When the British Tories were in power twenty years ago the peerage was dubbed the "beverage" because of the large number of brewers who received titles. It seems that quicker-witted Lloyd George perceived that more powerful support might be secured from the press than from all the rich brewers combined. At any rate it is stated that during his six years as Premier he caused titles and other honors to be conferred on forty-nine British journalists, hoping thus to bring a large section of the press under his control. As retiring Premier Lloyd George has the right to present to King George a further list of men he regards as worthy of peerages or other titles, but, according to a London dispatch, this list has not been made public and there is much speculation as to the cause.

One explanation is that the King has held up sanction of the list pending the report of the Royal Commission appointed to investigate charges that titles were bought for cash. The more recent scandal of this sort, leading to the appointment of the commission, began last summer, but for years it has been charged that any man who contributed generously enough to party funds could get a title. Under the Lloyd George regime, it is said \$200,000 was paid for some peerages and from \$35,000 to \$100,000 for knighthoods. It is both interesting and refreshing to learn that Sir J. B. Robinson, South African diamond millionaire, who was slated for a peerage, promptly declined the dubious honor as soon as the latest title scandal was started and in his published statement emphatically declared that he never contributed a penny to the funds of any party.

EX-SOLDIERS TO MEET

How many Foreign Service Men are there in and about Farmington, officers or enlisted men, who have served in the Army, Navy or Marine Corps of the United States of America in any foreign war, insurrection or expedition? (Which service shall

be governed by a campaign badge issued by the United States Government of America.)

This is an organization of real red-blooded men; men bound together in an eternal brotherhood by chains forged in blood on the battlefields of far off lands under the drooping folds of the Stars and Stripes. Men who served in Cuba, Haiti, Porto Rico, Boxer Uprising, France, Italy and Russia.

We are composed only of men who have stood the test of fire and steel in Manila, infested Cuba, Haiti and Porto Rico; men who waded through the rice paddies of career; men who hiked over the burning sands of China; men who braved the cold and privations of Siberia; men who faced steel and lead with a laugh in the devastated fields of France and Italy.

If you are one of those men and want to associate with these kind of men, the Veterans of Foreign Wars want you. The Veterans of Foreign Wars now have two and a half million members, and every day men are joining the ranks.

Ella Day, of Farmington, was a Foreign War Veteran; she has answered the last roll call. Everyone of our red-blooded "vets" who are interested in eternally commemorating her name can do so by forming an Ella Day Post of Veterans of Foreign Wars, of Farmington, at a meeting Nov. 22nd, 1922, at the Court House at 7:30 a. m.

Let's see all you Spanish-American War veterans, who served on other shores, and you World War veterans of the same caliber turn out and help us to start a real, live, long established Veterans organization.

HELP SAVE MISSOURI 3,000 LIVES A YEAR

Remember, filling our cellar with coal isn't all we have to do to get ready for winter. Buy Tuberculosis Christmas Seals.

In this issue of The Times appears a cartoon by J. N. Ding, one of the nation's foremost cartoonists who gives syndicate service to a number of leading cosmopolitan daily newspapers. The true name of the cartoonist is Jay N. Darling, and his home is in Des Moines, Iowa.

The use of this cartoon has been the contribution of Mr. Darling in the fight against tuberculosis, a worthy cause commanding the support of everybody. The picture is full of meaning, tells its own story and affords a subject for meditation.

The cartoon will have wide use by newspapers in Missouri. The newspapers contribute space to give publicity to the sale of Tuberculosis Christmas Seals which is being conducted throughout Missouri by the pupils of the schools. The cartoon also has been adapted to display upon the screens of the leading moving-picture theatres of the State who thus contribute to the cause.

The general fight in the State against tuberculosis has been conducted by the Missouri Tuberculosis Association and is yielding results that justify the financial support of everybody in the State.
